WEST AUSTRALIAN EUROPEAN DEFENCE INDUSTRY FORUM

Day 2 - Friday 20th March 2020

AIRBUS DEFENCE & SPACE WA Roadshow Workshop - 09:00-12:30

This interactive workshop presented by AIRBUS Australia – Defence, Space & Intelligence Group will introduce AIRBUS Industries to stakeholders in the growing WA defence, space and cyber industry. AIRBUS seeks to know WA industry capability to work into its project bids both in Australia and in its wider global supply chain. The purpose of the AIRBUS briefings is to engage Australian industry and identify potential partners for roles in the pursuit, delivery and support of projects of interest to Airbus Defence and Space such as, but not limited to- satellite and terrestrial communication networks, processing of imagery and data and surveillance sensors. Airbus is seeking to identify suitable Australian partnerships for its Australian projects as well as for its wider AIRBUS global supply chain. The event will consist of an hour and a half of presentations plus questions, followed by engagement and networking opportunities.

Current projects of interest as indicated by AIRBUS are:

- JP9102 - Australian Defence Satcom System
- JP9111 – Joint Command & Control
- SEA 1442 Phase 5 - Maritime Tactical C3 Sub Program
- Def 799 – Enhanced Satellite ISR Capability
- Satellite Based Augmentation System (SBAS)
- FMSC – Future Maritime Surveillance Capability
- Zephyr – High Altitude Pseudo Satellite
- EMAC – Enhanced Maritime Awareness Capability NZ

Registration Eventbrite Venue: Curtin University, Old Perth Boys School, 139 St Georges Terrace, PERTH. WA Time: 09:00 - 09:30 Registration Workshop 09:30 - 11:30 Networking Session with lite lunch provided - 11:30-12:30 Enquiries: info@waeba.org.au
